EXAMINER

NHU, DAVID

ART UNIT PAPER NUMBER

2818

DATE MAILED: 01/08/2003

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

10/039,126

Applicant(s)

KIM ET AL.

Examiner

David Nhu

Art Unit

2818

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 October 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-26 is/are pending in the application.
- 4a) Of the above claim(s) 18-26 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-17 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- 11) ☐ The proposed drawing correction filed on _____ is: a) ☐ approved b) ☐ disapproved by the Examiner.
- If approved, corrected drawings are required in reply to this Office action.
- 12) ☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

- 13) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.
- 14) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).
- a) ☐ The translation of the foreign language provisional application has been received.
- 15) ☐ Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☒ Information Disclosure Statement(s) (PTO-1449) Paper No(s) 3.
- 4) ☐ Interview Summary (PTO-413) Paper No(s). _____.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____.

DETAILED ACTIONS

Election/Restrictions

Applicant's election of Group I (Claims 1-17) in page No.6 is acknowledge. Claims 1-17 are remained for examination. Accordingly, claims 18-26 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1, 7-17 are rejected under 35 U.S.C. 102(e) as being anticipated by Chang (6,125,060).

Regarding to claim 1, Chang, figures 1-7, and related text on col. 1-12, (figures 1a-1g, 7a-7d, col. 3, lines 51-67, col. 4-6, lines 1-67, col. 8, lines 41-67, col. 9, lines 1-41), disclose a non-volatile semiconductor memory device comprising: a substrate 100; a charge storage region 103, 109 on the substrate; a control gate 101 on the charge storage region; and a gate mask 122, 125 on the control gate, wherein the gate mask is in a shape of a spacer (see figure 7d). Regarding claims 7-9, see Chang, figures 1a, 7d, col. 51-67, col. 4, lines 1-14, col. 9, lines 1-29.

Regarding claim 10, Chang, figures 1-7, and related text on col. 1-12, (figures 1a-1g, col. 3, lines 51-67, col. 4-6, lines 1-67), disclose a non-volatile semiconductor memory device comprising: a substrate 100 having a source 105 and a drain 108; a channel 113 between the

source and the drain; a charge storage region 103, 109 on the channel; a control gate 101 on the charge storage region; and a select gate 122, 125 on the channel and between the charge storage region and the drain; the charge storage region, the channel, the drain, the control gate, and the select gate forming a first unit cell.

Regarding claims 11-17, see Chang, col. 1-12, lines 1-67.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chang (6,125,060) in view of Yi (5,455,792).

Chang fails to teach a non-volatile semiconductor memory device according claim 1, further comprising: a select gate formed on the substrate and a sidewall of the charge storage region; a conductive region formed on the substrate adjacent another sidewall of the charge storage region, the charge storage region, the control gate, the gate mask and the select gate forming a first unit cell; a second unit cell being symmetrical and opposite to the first unit cell, wherein the first unit and the second unit cell share the conductive region, wherein the first unit cell further comprises a LDD spacer on a sidewall of the select gate; a drain formed in the substrate adjacent to the select gate and opposite to the conductive region; a bit line electrode electrically connected to the drain; a source electrode on the conductive region, wherein the

source electrode is electrically isolated from the control gate by a source-side spacer. However, Yi, figures 1-14, col. 1-20, teach a select gate formed on the substrate and a sidewall of the charge storage region; a conductive region formed on the substrate adjacent another sidewall of the charge storage region, the charge storage region, the control gate, the gate mask and the select gate forming a first unit cell; a second unit cell being symmetrical and opposite to the first unit cell, wherein the first unit and the second unit cell share the conductive region, wherein the first unit cell further comprises a LDD spacer on a sidewall of the select gate; a drain formed in the substrate adjacent to the select gate and opposite to the conductive region; a bit line electrode electrically connected to the drain; a source electrode on the conductive region, wherein the source electrode is electrically isolated from the control gate by a source-side spacer.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Sakamoto'121, Orlowski'382, Wang'185, Bergemont'315 are cited as of interest.
6. A shortened statutory period for response to this action is set to expired 3 (three) months and 0 (zero) day from the date of this letter. Failure to respond within the period for response will cause the application to become abandoned (see 710.02 (b)).
7. Any inquiry concerning this communication on earlier communications from the examiner should be directed to David Nhu, (703) 306- 5796. The examiner can normally be reached on Monday-Friday from 7:30 AM to 5:00 PM. The examiner's supervisor, David Nelms can be reached on (703) 308-4910.
